“Rewarding children with unhealthy foods in school undermines our efforts to teach them about good nutrition. It’s like teaching children a lesson on the importance of not smoking, and then handing out ashtrays and lighters to the kids who did the best job listening.”

Marlene Schwartz, PhD, Co-Director, Yale Center for Eating and Weight Disorders

Consequences of Using Food as Reward

Compromises Classroom Learning: Schools are institutions designed to teach and model appropriate behaviors and skills to children. Nutrition principles taught in the classroom are meaningless if they are contradicted by rewarding children with candy and other sweets. It’s like saying, “You need to eat healthy foods to feel and do your best, but when you behave or perform your best, you will be rewarded with unhealthy food.” Classroom learning about nutrition will remain strictly theoretical if schools regularly model unhealthy behaviors.

Contributes to Poor Health: Foods commonly used as rewards (like candy, and cookies) can contribute to health problems for children, e.g., obesity, diabetes, hypertension and cavities. Food rewards provide unneeded calories and displace healthier food choices.

Encourages Overconsumption of Unhealthy Foods: Foods used as rewards are typically “empty calorie” foods — high in fat, sugar and salt with little nutritional value. Decreasing the availability of empty calorie foods is one strategy schools can use to address the current childhood obesity epidemic.

Contributes to Poor Eating Habits: Rewarding with food can interfere with children learning to eat in response to hunger and satiety cues. This teaches kids to eat when they are not hungry as a reward to themselves, and may contribute to the development of disordered eating.²,³

Increases Preference for Sweets: Food preferences for both sweet and non-sweet food increase significantly when foods are presented as rewards. This can teach children to prefer unhealthy foods.³,⁴

Over 15 percent of children are overweight, a three-fold increase from the 1970’s.¹
What Schools Can Do
Ideas for Alternatives to Using Food as a Reward

Schools can help promote a healthy learning environment by using nonfood rewards. The ideas below are just a beginning and can be modified for different ages. Be creative, and don’t forget the simple motivation of recognizing students for good work or behavior.

**Elementary School Students**
- Make deliveries to office
- Teach class
- Sit by friends
- Eat lunch with teacher or principal
- Eat lunch outdoors with the class
- Have lunch or breakfast in the classroom
- Private lunch in classroom with a friend
- Be a helper in another classroom
- Play a favorite game or do puzzles
- Stickers, pencils, bookmarks
- Certificates
- Fun video
- Extra recess
- Walk with the principal or teacher
- Fun physical activity break
- School supplies
- Trip to treasure box filled with nonfood items (stickers, tattoos, pencils, erasers, bookmarks, desktop tents)
- Dance to favorite music in the classroom
- Paperback book
- Show-and-tell
- Bank system - Earn play money for privileges
- Teacher or volunteer reads special book to class
- Teacher performs special skill (singing, cart wheel, guitar playing, etc.)
- Read outdoors or enjoy class outdoors
- Have extra art time
- Have “free choice” time at end of the day or end of class period
- Listen with headset to a book on audiotape
- Items that can only be used on special occasions (special art supplies, computer games, toys)

**Middle School Students**
- Sit with friends
- Listen to music while working at desk
- Five-minute chat break at end of class
- Reduced homework or “no homework” pass
- Extra credit
- Fun video
- Fun brainteaser activities
- Computer time
- Assemblies
- Field trips
- Eat lunch outside or have class outside

**High School Students**
- Extra credit
- Fun video
- Reduced homework
- Donated coupons to video stores, music stores or movies
- Drawings for donated prizes among students who meet certain grades standards

Share what works! Let us know your strategies to motivate students so we can share with others.
